No

III. Discussion and analysis of business

1. Introduction of operation in the reporting period

2020 was a very unusual year, the sudden outbreak of COVID-19 epidemic caused the company's important subsidiary in Wuhan to be affected by the epidemic, the resumption of work and production was later than in other areas of the country, and the loss of orders was relatively serious. Faced with such a difficult business environment, all employees of the company worked together to actively overcame the adverse effects of the epidemic, complied with the industry environment and the adjustment of national policies, broke through thinking and management strategies, and achieved good operating results.

In 2020, the company achieved operating revenue of 691.7423 million yuan, a decrease of 4.13% on a year-on-year basis, total profits of 8.82 million yuan, increased by 13.76% compared with the same period last year, net profit amounted to 6.8302 million yuan, a 25.09% up from a year earlier.

- •Video service business achieved annual operating income of 396.06 million yuan, an increase of 19.29% on a year-on-year basis, operation profit amounted as 6.4795 million yuan with 132.49% up from a year earlier. During the reporting period, the Video Business Division adjusted the product structure and optimized the sales ratio of each brand of products. The sales ratio of AOC, VSCN and VSC series brands have increased, which opened online sales channels such as Jingdong while completing existing customer orders, and sold 900,000 LCD monitors in 2020, an increase of 9.68% over last year.
- •Injection molding business achieved annual operating income of 185.4917 million yuan, a decrease of 25.86% over the same period last year, operation profit amounted as 548,600 yuan, an increase of 2.39% from a year earlier. With the unceasingly fierce competition in the market, the profit margin of injection molding was squeezed, but the new production line put into production by this business division at the end of 2018 gave full play to its automation advantages in 2020, which greatly improved production efficiency and reduced production costs. The injection molding division achieved annual sales volume of 9,900 tons, completed the annual sales target.

- •Polylon business achieved annual operating income of 35.8333 million yuan, a decrease of 44.30% over the same period last year. Actual sales for the year were 2,500 tons, basically reaching the sales target. In order to better fulfill the sales target of 2021, the EPS business division maintained existing orders, increased the proportion of structural parts orders, developed new customer resources, and strive to accept more domestic and foreign large-scale household appliance customers' orders.
- •The property rental business achieved annual operating income of 40.5875 million yuan, an increase of 4.55% from a year earlier, operating profit amounted as 6 million yuan with a growth of 7.86% over that of last year. In 2020, the company optimized the structural proportion of commercial tenants, and the occupancy rate was greatly improved, at the same time, the company strictly controlled costs and reduced unnecessary expenditures. Therefore, the company's overall rental profits increased significantly compared with the previous year.

2. Whether the main business had major change in the reporting period

□ Yes √ No

3. About the industries, products, or regions accounting for over 10% of the company's operating income or operating profit
